Serious State of Affairs In Bracken County.

Scores of Complaints Received by Governor.

Bands of Night Riders Terrorize the People.

SOLDIERS NOW IN FULL CONTROL.

According to reports received at the Governor's and Adjutant General's offices a serious and dangerous condition of affairs exists in Bracken county and the State troops are necessary in order to put down the lawlessness which prevails there. Scores of letters have come to the Governor's office, pleading for protection and saying that bands of night riders are whipping men by the dozen for trivial things, such as even daring to express their opinion on the subject of the night riders or telling that they had been whipped. It is said that the newspaper correspondents have been warned not to send out the news of whippings and raids by the night riders and a large number of the outrages which have been committed have never been printed in any papers.

Acting on the information contained in these letters and answering the plea of men and women who have been threatened, the Adjutant General sent soldiers to Bracken county to take charge of the situation. The county officials did not ask for the soldiers, but this is not deemed necessary where a State of lawlessness exists and where it is deemed necessary to send the soldiers. The State troops are to protect the people from the bands of lawless men and also try to discover who some of them are so that the guilty men can be convicted.

Frankfort Company Sent.

The Frankfort company went to Bracken county and the men were pleased that they finally are to see service. The captain, Carl Norman, had resigned because he felt that he was slighted by not being called into service, so he welcomed the order putting his company in active service.

According to the letters which have been coming into the Governor's office during the last week, the night riders have been working twice each week and each time they have been out they have whipped from two to a dozen men.

Some of the writers of these letters say that women and children fear to go to sleep at night, as they do not know at what time their homes will be fired into or a band of raiders call out the head of the family and whip him.

The whole county is said to be terrorized by the night riders. Persons are afraid to talk or even to tell that they have been whipped, as several times a man has been whipped the second time for telling that he was whipped the first time.

The reports received by the Adjutant General's department are to the effect that the county authorities have declined to give protection to the men who have been threatened or molested by the night riders and the lawless bands have been allowed full sway in their work in the county. A brother of the county attorney was whipped, and hardly a night passes but some man is taken from his home and beten.

Governor Cox Pardons

Convict Who Is Dying

RELEASES MAN SENT FROM LOUISVILLE ON CHARGE OF ROBBERY.

Acting Governor Cox pardoned Joseph Russell, sent to the Penitentiary for five years from Louisville on the charge of robbery. He has served about a year and a half and is slowly dying of consumption. The Governor in granting the pardon wrote on the outside: "This pardon is granted upon request of the Judge and Commonwealth's Attorney, who tried the case and upon the affidavit of the prison physician and Secretary of State, who is a physician, as to the incurable condition of the prisoner, being a victim of tuberculosis."

and the troops no such thing is expected here. It is believed that the presence of the soldiers will have the effect of keeping things quiet, and there is thought to be little probability of any attack being made on the soldiers.

Col. E. W. Lillard, who is in command of the troops in that section of the State, reported to the Adjutant General's office that a gun, in the hands of one of the privates was accidentally discharged Sunday while the men were on the march. He reported that the soldiers were placed under arrest at once and will be held pending an investigation. No report has been made here of any clash between the soldiers and the civil authorities.

No additional troops were ordered out, but Acting Governor Cox said that there seemed to be a serious condition of affairs existing in Bracken county and it might develop into something much worse.

Adjutant General P. P. Johnston has returned from New York and is in charge of the affairs of the office.

\$35,000 VERDICT

Awarded Man Whipped By The Night Riders.

JURY IN FEDERAL COURT HANDS OUT DAMAGES TO BOB HOLLO-WELL.

A verdict for \$35,000 was returned for the plaintiff in the Robert Hollowell night rider damage suit at Paducah. The jury was out but thirty-five minutes. Every minute the jury deliberated cost the defendants the sum of \$1,000.

The jury was from Jefferson and Bullitt counties.

The jury was one of the most intelligent looking that has ever filled the jury box in the Federal Court there some of them being from Louisville. Some were business men, some farmers and others employees. A more impartial jury or more ideal jury could not have been secured. The lowest amount favored was \$25,000, and six favored the full amount of \$45,000. Then they got to figuring and all settled on \$35,000. One of the jurors said the verdict could have been reached in ten minutes had not one or two Louisville men been so firm for giving the full sum.

Robert H. Hollowell sued John E. Hollowell, his brother, and twenty-seven other alleged night riders of Caldwell county, for whipping him on the night of May 1, and driving him out of the State. His wife has a suit pending for a similar sum and his twelve-year-old son, Price, has a suit for \$25,000. They make the same allegations as Robert Hollowell. At the first trial of the action in April, the jury was hung by two farmers. The remainder of the jury would have given the plaintiff as high as \$40,000. The defense will make a motion for a new trial, and if it is refused will take an appeal to the Supreme Court of the United States.

Insane Asylum Now Filled To The Limit.

CAPACITY OF 1,400 AT LAKELAND REACHED AND SOMETHING MUST BE DONE SOON.

The total capacity of 1,400 patients at Central Asylum has been reached with the result that the authorities may be given some trouble in the care of lunatics. Judge Joseph Pryor announced in the Criminal Court in Louisville that there could be no more trials for lunacy requiring commitment until the situation was relieved. Trials where the patients are only harmless incurables and in which the State allows \$75 a year to relatives for the keep of such patients at their home may still continue.

Dr. W. E. Gardner, assistant superintendent at the asylum, stated that there were now 1,392 patients there. However, as they are frequently being paroled or discharged as cured, the chances are that the full capacity of the institution will not be reached.

STOCK DISEASES

Will Be Discussed For Benefit of Farmers.

EXPERT LECTURE IN THE HOUSE OF REPRESENTATIVES.

Recognizing the fact that the farmers are the victims of various diseases of the stock, the House of Representatives, M. C. Mrs. L. of Agriculture, has arranged for a series of lectures by Dr. Charles Killip, Veterinarian, to go, for the purpose of giving a series of lectures on the novel features of the institution being introduced by Commissioner Rankin to let the farmers know how to prepare and administer the remedies.

Dr. Frazier will be sent to the sections of the State producing the largest amount of live stock. The lectures will be taken in shape and after being transcribed will be printed in book form and distributed among the farmers throughout the entire State.

Ottis Crane, of Lebanon, Indiana, has been engaged by Commissioner Rankin to deliver a series of lectures to the poultry breeds of this State during the institutes. For some time Mr. Crane has been delivering lectures before Purdue University, in Indiana, and is regarded as an expert on all poultry matters. The poultry business in this State has increased so rapidly during the past five years that the egg crop is worth more than the wheat crop.

Want Total Abstinence As Next President.

METHODIST EPISCOPAL CONFERENCE ALSO DENOUNCES RACE-TRACK GAMBLING.

Inviting the Methodist, Protestant Church to consolidate with its own, urging Christians to assist on a total abstinence for the presidency, denouncing race track gambling and calling on the people of New York to support Gov. Hughes in his crusade against that evil, inviting President Roosevelt and Ambassador Bryce to be present when the fraternal delegates of the British Methodist church are received, setting Wednesday, May 20, as the date for taking up the question of the election of new bishops; discussing the question of Bishop's assignments, and considering various other things, the general conference of the Methodist Episcopal church got through a busy session at the Lyric in Baltimore.

Bishop M. C. Harris, of Japan and Korea, made his report, in which he told of the growth and needs of the Methodist Episcopal church in those countries.

Burley Society Will Put The Price Up.

INCREASE DECIDED UPON BUT HOW MUCH HAS NOT YET BEEN MADE PUBLIC.

It became known here this week that the Burley Tobacco Society, by its board of control, had decided several days ago, at a meeting in Winchester, to increase the price of the tobacco which is now in the pool. The present price is 15 cents on an average, and it is said that this price will be materially increased, so that if the trust wants the crop it will have to pay much more than it would at the present time.

It was said by the society that the price would be shoved up after a certain time unless the trust bought the tobacco, and it is said now that this has been done. What the increase is is not known to the Burley Society members here, and an announcement has been made of the increase. Even members of the society do not know that the price has been increased, but it is stated here on reliable authority that action has already been taken.

10,000 Chinese Meet Death At One Time.

TIDAL WAVE SWEEPS AWAY BOATS AND HOUSES ON THE YANGTSE KIANG.

News of one of the greatest disasters that China has ever known, a sudden tidal bore in the Yangtse Kiang, which involved the loss of nearly 10,000 lives at Kiangow, was brought by the steamer Titan.

A bore twenty-six feet in height, flooded without warning down the river over which hung thousands of junks, sampans and small boats, and wrecking some large river steamers.

Some 3,000 Chinese were sleeping in sampans and small craft and mat sheds and huts by the riverside at Hangow and they were enveloped by the great wave, which swept broken junks, splintered sampans and a heterogeneous mass of debris with swarms of drowned Chinamen mixed with the wreck.

The scenes for many days after the disaster were horrible, the riverside being strewn with dead and debris of wrecked craft for many miles around.
